

**APPS**  
TRANSPORT  
GROUP

# about

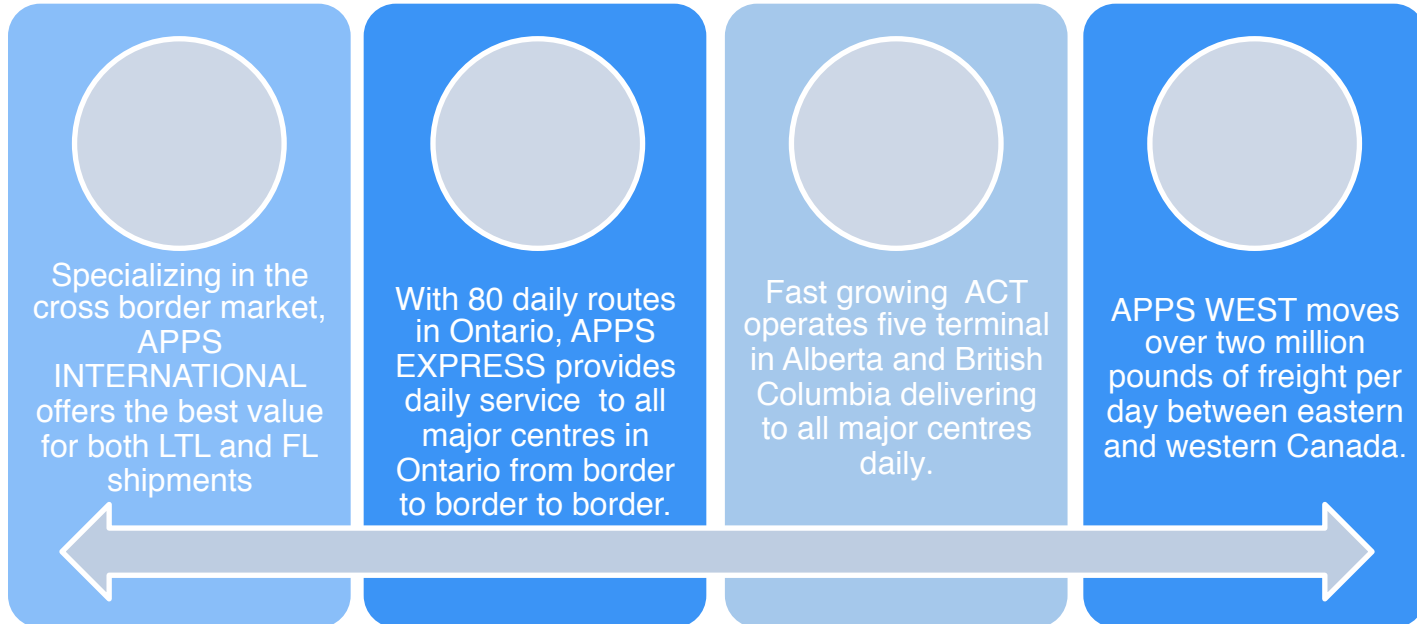

## APPS

In 1985, **Robert McDonald** saved and borrowed money from family and friends to buy a truck license in Brampton, Ontario. At the start, APPS consisted of 2 trucks and 2 employees. Within 24 months the company had **doubled** in size and that trend continued for the next several years landing APPS on the Top 100 **Fastest Growing** Companies list. From humble beginnings, APPS now has grown to \$90 million in sales with 400 employees and operates 100 trucks in 6 terminals in Canada. APPS continues to **rise** to the challenge of the market and provide custom transportation solutions.

# team

## APPS

“Every day, we move something with them. I absolutely would recommend APPS—and have!”

# product

## APPS

### FULL LOAD & LTL

Daily service to 70% of Canada's population and partner coverage to 100%.

### TRANSBORDER

Our carrier network moves all sizes of shipments from and to anywhere there are roads in North America

### WAREHOUSING & DISTRIBUTION

Five hundred thousand square feet of warehousing for a wide variety of customers in Ontario, British Columbia and Alberta.

### INTERMODAL

Efficient and low carbon intermodal service with all Class 1 railroads is the future of long haul truckload in North America.

“The best thing about working with APPS is you get personal care. Someone picks up the phone when we call. A person follows each of our projects from start to finish.”

# special

## APPS

### equipment

- Trailers, containers, tri-axle, heaters, flat decks, curtainside, straight trucks, power tailgate

### handling

- Tagging, sorting, cross dock, segregating, extra labour, storage

### delivery

- Evenings and weekends, unattended, home, appointment, construction site

### cargo

- Excess value, bonded, dangerous goods, protective service

"APPS is one of our pilot carriers; anytime we are looking to roll out a new program, they are typically one of the first carriers we go to."

# quality APPS

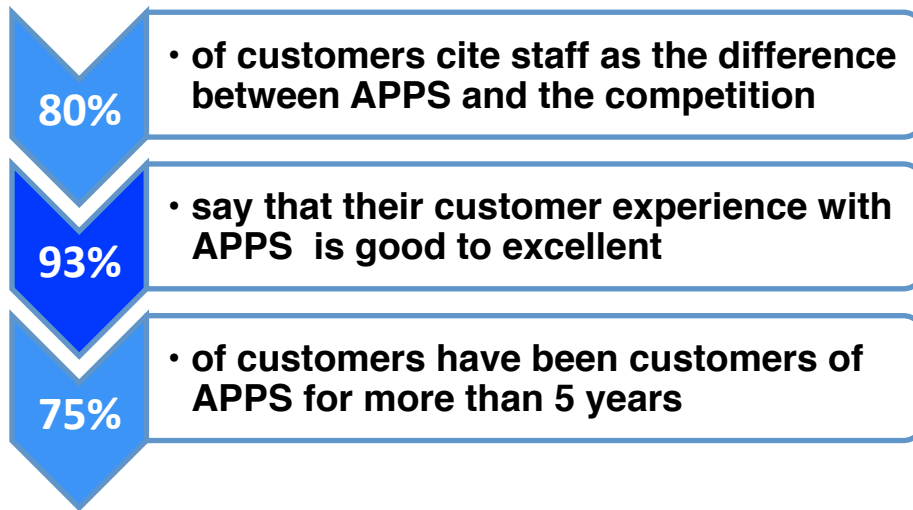

pickup **on time**  
**consistent** transit  
**deliver** on time  
safe and **secure**  
**accurate** freight bill

"APPS consistently met or exceeded our expectations in the areas of on-time delivery, claims, and number of lanes covered. The rest of this industry has to catch up to APPS."

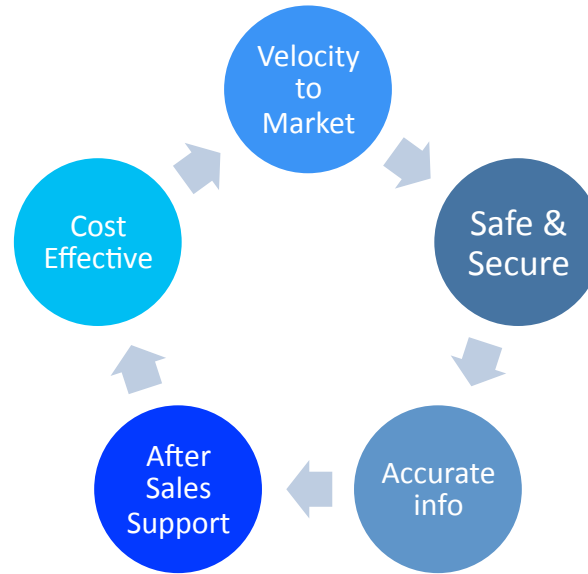

# service APPS

“APPS has done an outstanding job on getting all of our product shipped out the door in a timely manner. When you call them up you always talk to a “live person”. They get you the immediate attention you need.

# core APPS

"APPS is one of the most dependable vendors we work with. We can always count on APPS to do what they say they are going to do."

# network

## APPS

**Direct service** to  
**70%** of Canada's  
population and  
interline  
coverage to  
**100%**

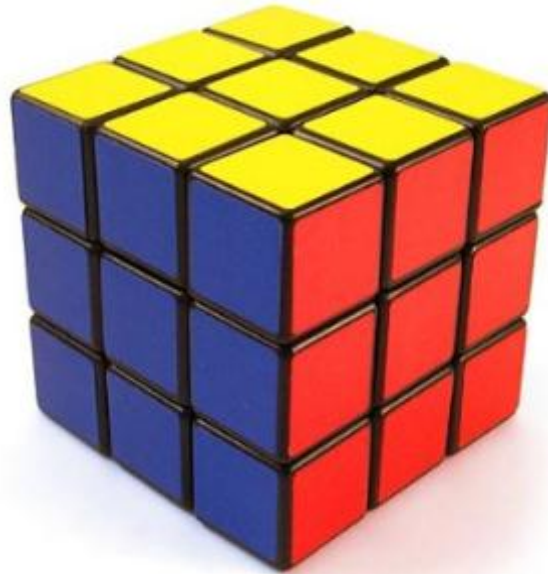

“We are very happy with APPS service. There are no obstacles, and they have been a good problem solver for us”

# solution

## APPS

“APPS really stands out in the trucking industry. They come out to discuss our needs, give us simple solutions to complex problems and we share in the cost savings. That makes it a relationship, not a commodity.”

# automotive supply

## APPS

Simple **Solutions**  
to Complex Problems

A multi-modal transportation, storage, handling and visibility solution can take the **pressure off** suppliers while ensuring OM and aftermarket customers receive a **fast and reliable** flow of product.

"I can always count on this company to handle our needs with the urgency we require. I have and will continue to recommend this company based on service, efficiency and cost feasibility."

# retail and cpg

## APPS

Simple **Solutions**  
to Complex Problems

Major cost and GHG emissions reductions can be achieved with the right solution which not only **reduces cost and carbon** but also reduces lead time, stock to sales, stockouts and damages/returns.

“ We have worked with APPS for 15 years. In this time they have proven to be a "partner" in our business and needs. APPS consistently meets our on time delivery needs. This benefits both our customers and our firm substantially.”

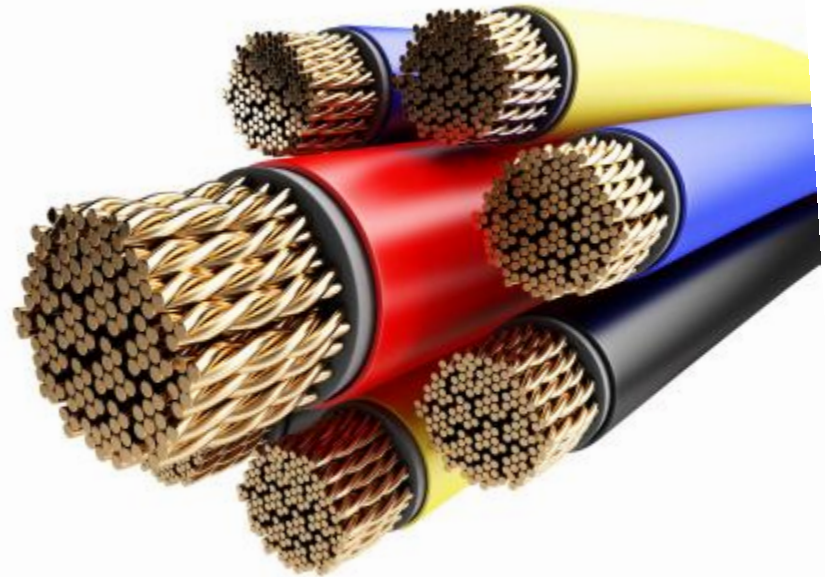

# cable and wire

## APPS

### Simple **Solutions** to Complex Problems

Engineered transportation and logistics solutions mirroring the lean manufacturing, **quality and safety** initiatives of the industry differentiates cable and wire manufacturers and distributors to customers.

"It is critical that we utilize carriers who share our commitment to safety and to meeting customer's requirements. APPS shares that philosophy and that is why we are pleased to have them as a key transportation partner."

# commercial supply APPS

## Simple **Solutions** to Complex Problems

One stop customized transportation solutions bundle vendor shipments **achieving goals** of reduced freight cost, carbon footprint, receiving productivity, shipment visibility and increased customer service.

Communication is a strong requirement for us so we know what is happening with each load shipping out the door and APPS has done a great job with that. They are a very professional and personal company to deal with.”

# special crops

## APPS

### Simple **Solutions** to Complex Problems

Cost effective, flexible and reliable first leg transportation solutions are critical to the **competitiveness** of growers, processors and exporters in the **world market**.

“We work with APPS a lot, based on price, availability, and the people we deal with there.”

# customer

## APPS

“APPS has some of the most professional people I’ve ever worked with. What’s unique is that they put a tremendous amount of focus on building a trusted partnership with us.”
